

Updated tentative program of ParaCon 24

Session-I: One health parasite
Presenter: Prof. Dr. Yongjun Chen
Affiliation: Distinguished Professor, Group leader, Director Pathogen biology and Vaccine Development Laboratory Institute of Infectious Diseases and vaccine development Tongji University of China
Title: <i>Schistosomiasis</i> : understanding basics to accelerate disease elimination
Presenter: Prof. Dr. Mohamed Aziz Darghouth
Affiliation: Ecole Nationale de Médecine Vétérinaire Laboratoire de Parasitologie, Ecole Nationale de Médecine Vétérinaire, 2020 Sidi Thabet, Tunisia
Title: The Role of Veterinary Medicine in Food Security in Light of the One Health Concept and the WEFE Nexus (Water-Energy-Food-Environment Nexus): An Analysis Focused on Animal and Zoonotic Parasite
Presenter: Prof. Dr. Jorge Enrique Gomez Marin
Affiliation: Universidad del Quindío Clasificación A1, Universidad del Quindío, Avenida Bolívar 12N, Armenia (Q), COLOMBIA, South America
Title: Epidemiology and impact of water and foodborne <i>toxoplasmosis</i>
Presenter: Prof. Dr. Ali Reza
Affiliation: Faculty of Veterinary Medicine, Bu-Ali Sina University, Hamedan, Iran
Title: Zoonotic Parasites of Equids

Session II: Sustainable Agriculture
Presenter: Dr. Fasiha Qurashi
Affiliation: University of Veterinary and Animal Sciences, Lahore
Title: Weed infecting monopartite begomovirus <i>Ageratum enation virus</i> and associated DNA-satellites complex first time reported in woody plant (<i>Morus alba</i>) from Pakistan
Presenter: Prof. Dr. Tehmina
Affiliation: University of Punjab, Lahore
Title: Exploring the potential of green synthesized nanoparticles to manage plant diseases with reduced application of Synthetic pesticides

Session-III: Ticks and tick-borne diseases
Presenter: Prof. Dr. Muhammad Sohail Sajid
Affiliation: University of Agriculture Faisalabad
Title: Role of reservoir hosts in the ecology of arthropods and arthropod-borne parasitic diseases
Presenter: Dr Reza Nabavi
Affiliation: Faculty of Veterinary Medicine, Bu-Ali Sina University, Hamedan, Iran
Title: Challenges in controlling cattle tick-borne diseases in Sistan-va-Baluchestan province in South Eastern Iran bordering Pakistan and Afghanistan

Session-IV: Infectious Diseases
Presenter: Dr. Mohammad Bagher ROKNI
Affiliation: Department of Medical Parasitology & Mycology, School of Public Health & Institute of Public Health Research, Tehran University of Medical Sciences, Tehran, IRAN
Title: The Burden of Parasitic Food-Borne Diseases in Asia Countries Unhealthy food cultures and the danger of parasitic diseases
Presenter: Prof. Dr. Wageha Awad
Affiliation: Clinical Department for Farm Animals and Food System Science, University for Veterinary Medicine Vienna
Title: Poultry – <i>Campylobacter jejuni</i> : An emerging food safety issue
Presenter: Prof. Dr. Neil Sargison
Affiliation: The Roslin Institute, The University of Edinburgh, UK
Title: Can chromosomal genome assemblies help to resolve helminth control challenges facing Pakistani smallholders?
Presenter: Dr. Mohsin Nawaz
Affiliation: University of Poonch Rawalakot
Title: First molecular identification and characterization of <i>Theileria luwenshuni</i> in sheep from Azad Kashmir, Pakistan
Presenter: Dr. Furhan Iqbal
Affiliation: Bahauddin Zakariya University, Multan
Title: First report regarding <i>Hepatozoon</i> and <i>Lankesterella spp.</i> infection in wild rodents from Pakistan with a note on effect of parasite on blood and oxidative stress markers from the vital organs of the host

Session-I: Poster Presentations
